

Discrete Wearable Security Camera

High quality, compact and lightweight digital surveillance camera

Simple "Set & Forget" operation

1. *Position* camera – clip to vest
2. *Arm* camera – simply turn it on!
3. *Review* images on *any* computer

Ultra low-power security camera...

- Can be configured to take up to one image every 2 seconds
- Ultra-low power technology enables the camera to operate uninterrupted for a full 10 hour shift
- Long life rechargeable battery

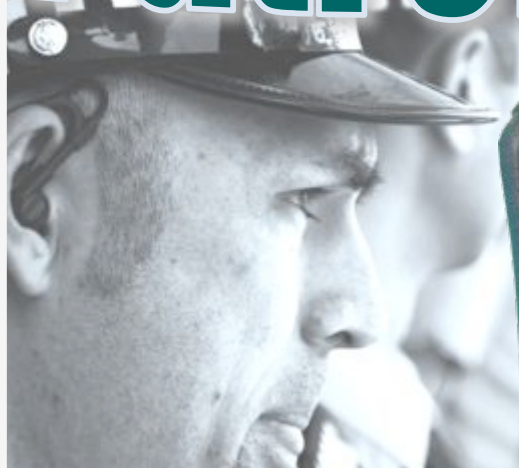

Truly wearable design...

- Lightweight design – only 124g including battery and case
- Cigarette packet size 77 x 65 x 17mm
- Weatherproof leather case (IP54) with flexible Krusell Multidapt® mounting system
- Privacy flap on camera case
- Case can be concealed behind a name badge, clipped onto a vest or attached to a shoulder strap

Capture high resolution still images...

- Colour or Monochrome options
- Security-grade image capture with embedded digital watermark
- Pinhole camera with wide angle lens (3.3mm)
- Superior low light performance
- Images are time & date stamped with digital signature
- Time and date stamped event log
- Image encryption for privacy
- Digital signature within each image for integrity verification
- Stores up to 210,000 still images on removable storage, then optionally overwrites the oldest images

PatrolEye

The next generation of mobile security cameras

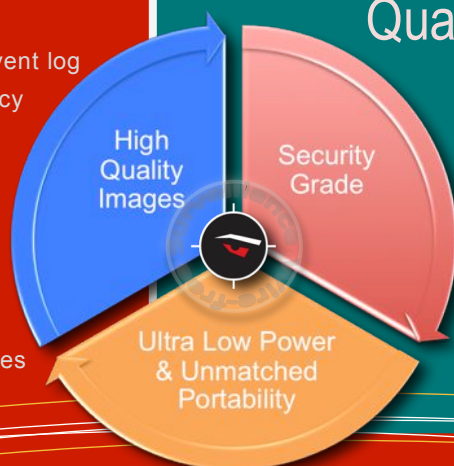

Fully automatic operation

Wire-free – does not impede officers during physical confrontation

Fantastic intelligence gathering tool

Patented low power design – 10 hours of use on rechargeable battery

Quality design & production

A revolution in wearable surveillance

The PatrolEye is a revolutionary new mobile digital surveillance camera designed to be "worn" by patrolling security and law enforcement officers. The camera will unobtrusively record the whole day's activities as seen by the wearer. PatrolEye provides valuable historical image intelligence, which can be easily retrieved at a later date and is court admissible.
