

RedEye mono  
20m Telephoto  
Camera

# RedEye

## REMOTE NightVision

RedEye REMOTE enables covert surveillance from a distance

RedEye REMOTE NightVision is a covert night vision spotlight that is wirelessly activated by your RedEye camera

RedEye REMOTE enables complete flexibility in your surveillance operation

- RedEye REMOTE devices enable covert surveillance from a distance
- RedEye REMOTE Triggers placed in close proximity to the target will activate the camera. RedEye REMOTE NightVision is then activated by the camera, providing night illumination of up to 15-20m of invisible light
- RedEye REMOTE NightVision is ideal for use with the RedEye 20m Telephoto cameras (8mm mono lens)

RedEye REMOTE NightVision features

- Up to 2.5 months battery life
- Up to 20m between RedEye REMOTE devices and the RedEye camera
- One RedEye camera can activate an infinite number of RedEye REMOTE NightVision units
- RedEye REMOTE uses high frequency wireless communications with high security addressing

*Note: RedEye cameras require a REMOTE NightVision Expansion Board to be installed inside the RedEye camera.*
